

I listen to KLOVE in Albuquerque, New Mexico. This music station is part of my life. It encourages me and lifts me up in my spiritual walk with the Lord. To displace this station would be a huge mistake. Believe it or not there are people out there who do not like the garbage that is on the radio. My kids (2,6) listen to this station too. I would rather have my kids listen to KLOVE than any other. This station is very important in my life and my family's life. There is no other station like KLOVE. There is a purpose a meaning in every song played on this station. There is no reason to take KLOVE away from so many people. This station has helped so many people.
